Title: Socio Economics Conditions of Marginal Farmer in Rohtak (Haryana)

Author: Ramesh Sherawat and Dr. Surender Ahlawat

Abstract: This paper is an attempt to know the socio economics conditions of marginal farmer in Rohtak district of Haryana with the help of Caste Structure of Marginal Farmers, Characteristics of the Occupied Houses, Land Position of Marginal Farmers, Position of irrigation land (Land in acres) and Average Value and Composition of Income of Marginal Farmers. This paper is based on primary data which is collected from different villages of the district. The finding of the paper reveals that all variables of socio economic conditions of marginal farmers are static not progressive. This paper concluded that government and others institutions should come forward to solve the problems of marginal farmers in Haryana.

Keywords: Agriculture, Marginal Farmers, Level of Living, Income.
